## 2007-08 School Accountability Report Card Report (SARC)

The School Accountability Report Card (SARC), which is required by law to be published annually, contains information about the condition and performance of each California public school. More information about SARC requirements is available at the [SARC](#) Web site. ### I. Data and Access

#### DataQuest

[DataQuest](#) is an online data tool that contains additional information about this school and comparisons of the school to the district, the county, and the state. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g. Academic Performance Index [API], Adequate Yearly Progress [AYP]), test data, enrollment, graduates, dropouts, course enrollments, staffing, and data regarding English learners.

#### Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

### California Standards Tests

The California Standards Tests (CSTs) show how well students are doing in relation to the state content standards. The CSTs include English-language arts (ELA) and mathematics in grades 2 through 11; science in grades 5, 8, and 9 through 11; and history-social science in grades 8, and 10 through 11. Student scores are reported as performance levels. Detailed information regarding CST results for each grade and performance level, including the percent of students not tested, can be found on the [Standardized Testing and Reporting \(STAR\) Results](#) Web page.

## California High School Exit Examination

The California High School Exit Examination (CAHSEE) is primarily used as a graduation requirement. However, the grade 10 results of this exam are also used to establish the percentages of students at three proficiency levels (not proficient, proficient, or advanced) in ELA and mathematics in order to compute Adequate Yearly Progress (AYP) designations as required by the federal NCLB Act of 2001. Detailed information regarding CAHSEE results can be found at the [CAHSEE](#) Web site.

## X. Accountability

### Academic Performance Index

The Academic Performance Index (API) is an annual measure of the academic performance and progress of schools in California. API scores range from 200 to 1,000, with a statewide target of 800. Detailed information about the API can be found at the [API](#) Web page.

## API Ranks – Three-Year Comparison

This table displays the school's statewide and similar schools API ranks. These ranks are published when the Base API is released each March. The statewide API rank ranges from 1 to 10. A statewide rank of 1 means that the school has an API score in the lowest 10 percent of all schools in the state, while a statewide rank of 10 means that the school has an API score in the highest 10 percent of all schools in the state. The similar schools API rank reflects how a school compares to 100 statistically matched "similar schools." A similar schools rank of 1 means that the school's academic performance is comparable to the lowest performing 10 schools of the 100 similar schools, while a similar schools rank of 10 means that the school's academic performance is better than at least 90 of the 100 similar schools.

API Rank	2005	2006	2007
Statewide			
Similar Schools			

- "N/A"** means a number is not applicable or not available due to missing data.
- "\*\*"** means this API is calculated for a small school, defined as having between 11 and 99 valid Standardized Testing and Reporting (STAR) Program test scores included in the API. The API is asterisked if the school was small either in 2007 or 2008. APIs based on small numbers of students are less reliable and therefore should be carefully interpreted.
- "A"** means the school or subgroups scored at or above the statewide performance target of 800 in 2008.
- "B"** 3730934
- "C"** means the school had significant demographic changes and will not have any growth or target information.
- "D"** means this is either an LEA, an Alternative Schools Accountability Model (ASAM) school, or a special education school. Target information is not applicable to LEAs, ASAM schools, or special education schools.
- "E"** indicates this school was an ASAM school in the 2007 Base API Report and has no target information even though the school is no longer an ASAM school.

## API Changes by Student Group – Three-Year Comparison

This table displays by student group the actual API changes in points added or lost for the past three years, and the most recent API score. Note: "N/A" means that the student group is not numerically significant.

Group	Actual API Change			Growth API Score

The API is asterisked if the school was small either in 2007 or 2008. APIs based on small numbers of students are less reliable and therefore should be carefully interpreted.

- "A" means the school or subgroups scored at or above the statewide performance target of 800 in 2008.
- "B" means the school did not have a valid 2007 Base API and will not have any growth or target information.
- "C" means the school had significant demographic changes and will not have any growth or target information.
- "D" means this is either an LEA, an Alternative Schools Accountability Model (ASAM) school, or a special education school. Target information is not applicable to LEAs, ASAM schools, or special education schools.
- "E" indicates this school was an ASAM school in the 2007 Base API Report and has no target information even though the school is no longer an ASAM school.

### **Adequate Yearly Progress**

The federal NCLB act requires that all schools and districts meet the following Adequate Yearly Progress (AYP) criteria:

- Participation rate on the state's standards-based assessments in English-language arts (ELA) and mathematics
- Percent proficient on the state's standards-based assessments in ELA and mathematics
- API as an additional indicator
- Graduation rate (for secondary schools)

Detailed information about AYP, including participation rates and percent proficient results by student group, can be found at the [AYP](#) Web page.

### **AYP Overall and by Criteria (School Year 2007-08)**

This table displays an indication of whether the school and the district made AYP overall and whether the school and the district met each of the AYP criteria.

AYP Criteria	School	District

Participation Rate - English-Language Arts	Yes	Yes
Participation Rate - Mathematics	Yes	Yes
Percent Proficient - English-Language Arts	Yes	No
Percent Proficient - Mathematics	Yes	No

### **Federal Intervention Program (School Year 2008-09)**

Schools and districts receiving federal Title I funding enter Program Improvement (PI) if they do not make AYP for two consecutive years in the same content area (English-language arts or mathematics) or on the same indicator (API or graduation rate). After entering PI, schools and districts advance to the next level of intervention with each additional year that they do not make AYP. Detailed information about PI identification can be found at the [AYP](#) Web page.

## **XI. School Completion and Postsecondary Preparation**

## Admission Requirements for California Public Universities

### University of California

Admission requirements for the University of California (UC) follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements please visit the [University of California](#) Web site.

### California State University

Admission requirements for the California State University (CSU) use three factors to determine eligibility. They are specific high school courses; grades in specified courses and test scores; and graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses utilize local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For general admissions requirements please visit the [California State University](#) Web site.

## Dropout Rate and Graduation Rate

This table displays the school's one-year dropout rates and graduation rates for the most recent three-year period for which data is available. For comparison purposes, data are also provided at the district and state levels. Detailed information about dropout rates and graduation rates can be found on the [DataQuest](#) Web site.

## Completion of High School Graduation Requirements

Students in California public schools must pass both the English-language arts and mathematics portions of the California High School Exit Examination (CAHSEE) to receive a high school diploma. For students who began the 2007-08 school year in the 12th grade, as evidenced by that school year's October CBEDS enrollment, this table displays by student group the percent who met all state and local graduation requirements for grade 12 completion, including having passed both portions of the CAHSEE or received a local waiver or state exemption. Detailed information about the CAHSEE can be found at the [CAHSEE](#) Web page. Note: "N/A" means that the student group is not numerically significant.
